#### **IV. Incentives, Sanctions, and Service Adjustments**

Delivering fair, effective, and safe responses for participant performance is critical for successful outcomes in treatment courts and one of the most difficult challenges for staff. Careful guidance is provided to help staff classify the difficulty level of participants' goals, and to deliver incentives or sanctions to enhance their attainment of achievable (proximal) goals and service adjustments to help them develop the skills and resources needed to achieve difficult (distal) goals. Cautious advice is provided to help treatment courts avoid serious negative side effects from the misapplication of high-magnitude sanctions, especially jail detention, and practical suggestions are offered to help programs deliver a creative range of low-cost incentives to maximize success. Finally, an example of an evidence-based phase structure with appropriate phase advancement

criteria is provided to help treatment courts avoid placing premature demands on participants and address their goals in a manageable and effective sequence.

Consider House Arrest Expectations and Procedures

Consider Re-enrollment Policy
