Good evening,

I am requesting my email be shared with the various committee members you support as well as our County Administrator. It is my understanding that there is a belief from our DA's office that much of the attention is coming from people who are out of our area. I don't believe that to be the case based on my network and wanted at least one taxpaying, voting voice be considered.

Thank you and happy holidays,

Tanya

Subject: [EXT]: Request for Reevaluation of Priorities and Acknowledgment of Reproductive Healthcare

Dear DA Urmanski,

I hope this letter finds you well. I am writing to express my concerns regarding developments in the legal proceedings within our county. While I understand and appreciate the challenging nature of your role as the County District Attorney, I believe it is essential to address the allocation of resources and priorities within the office.

I am particularly concerned about the decision to spend county funded resources to lead an appeal against the ruling of the circuit court. The circuit court has already made a decisive ruling on the matter in question, which involves reproductive healthcare and abortion services. I would like to emphasize that reproductive healthcare, including abortion services, is a critical component of comprehensive healthcare for women.

The decision to seek such services is a private matter that should be made by the patient in consultation with her healthcare provider, free from unnecessary government interference.

As a member of the Sheboygan County community, I value the work undertaken by the County District Attorney's office in maintaining law and order, ensuring justice, and fostering a safe environment for residents. It is my sincere hope that your office can continue to focus on these critical priorities and recognize that reproductive healthcare decisions are personal and should be respected as such.

As a woman, a community leader, and life-long WI resident, I hope you take time to reconsider a decision to lead an appeal and instead concentrate the efforts of the office on addressing the pressing legal matters that demand attention within our county. Allocating resources wisely and efficiently will not only benefit the community but also enhance public trust in the justice system.

I understand that your role involves complex decision-making, and I appreciate your dedication to upholding the law. Thank you for taking the time to consider my concerns, and I trust that you will make the best decisions for the welfare of our community.

I look forward to seeing the continued positive impact of the County District Attorney's office on the well-being of our county.

Sincerely,

Tanya Lulloff, GPHR, MBA

Sheboygan County Resident
